

# FOUNDATIONS

TRANSITIONAL PASTOR TRAINING

GREENVILLE, SC // MAR 14-16, 2023

You are invited to participate in our Transitional Pastor Training Seminars where you will learn, together with your peers, how to recognize the issues congregations face, how to provide a consistent non-anxious presence, how to guide the leadership and the congregation to envision God's preferred future for them. In the process, you will give the search team and the congregation the space they need to prepare for the next called pastor.

This Foundations course helps lay the groundwork for those considering taking their first steps into becoming a Certified Transitional Pastor, or for those who wish to step into a helpful refresh of fundamental elements of ECO's program. Training topics will include Spiritual Formation, Foundations, and Leading Through Change, this training is incredibly beneficial for the Transitional Pastor to begin to learn how to approach each congregation's transitional season with wisdom and strength, both spiritually and in practice – some would say its foundational!
